GUANO.

A TRUE BIRD GUANO.

ORCHILLA GUANO.

Orders from prompt customer. filled without Soluble Ammoniated South Sea Guano.

Analysis made by order of Prof. W. C. KERR, State Geologist of North Carolina, by Dr. F. A. GENTH, University of Penna, at Philadelphia. WEST PHILADELPHIA, January 4th, 1875. I have analyzed as follows: -1 sample of "Soluble Ammonisted South Sea Guano, pre pared for Cotton by B. M. RHODES & CO., 82 South Street, Baltimore, 182 lbs.," which I found to contain—

Soluble Phosphoric Acid, 4.32 " " equivalent to 943 per cent of Bone Phosphate of Lime Precipitated " 4.32 " " 15.63 " " " litrogen, equivalent to 2.98 " " Ammonia. 2-Sample of "Orchilla Guano, A. A., B. M. RHODBS & CO., Importers' Agents, 82

South Street, Baltimore, 167 lbs. Curacao," which I found to contain-

Phosphoric Acid, - 26.86 per cent., equivalent to 58,64 per ct. of Bone Phosphate of Lime Both samples were certified to have been taken, set led and 1, 1, by Thos. Harris Hodges, Notary Public, and were in perfect condition.

F. A. GENTH. The Orchilla, which seems to be an organic deposit, can be recommended to the farmer for use in its crude state, and after a careful and complete analysis, as well as a thorough examination of the mechanical condition, as well as from the testimony of several who have used it in its crude state, and have expressed to me their entire satisfaction. I feel perectly justified in recommending the Orchilla, Prof. Anal. and App'ld Chemistry, Maryland Institute.

The Orchilla Guano, which is truly an organic deposit, deserves well the attention of the farmer, not only on account of the high grade of its Phosphates of Lime and Alkaline Salts, but more particulary for the phisical condition and texture in which Guano is This material decidedly recommends itself to the attention of farmers by its large pro-A LL persons having claims against the estate of John W. Knight, are notified to exhibit the same to me or to Fred. Philips, my Attorney in Tarboro, on or before the lst day of Fehruary, 1876.

WM. H. WEATHERSBEE, Adm'r.

RALEIGH, N. C. January 29, 1875. From the Analysis of Dr. Genth there is no doubt of the high per centage of Phosphate of Lime in this Guano, and I endorse the recommendations of Prof. MALLETT upon the above testimony of himself and Prof. Liebic & Tonky as to its physical condition that it offers a desirable source of Phosporic Acid to Cotton Farmers and others who have the means of furnishing the Nitrogenized matter at home.
